Taxport A/P

Taxport A/P provides Accounts Payable departments with a turnkey solution to 1099 reporting requirements. The alliance between T-Chek and Convey lets T-Chek customers use their [T-Chek MasterCard®](#) [Corporate Card®](#) for cardable transactions which do not require the issuance of a 1099 form. Using any other form of payment for purchases totaling more than \$600 in a calendar year will require companies to send a 1099 but Taxport A/P makes it easy. Because it is Web-based, companies no longer need to purchase, install, integrate or operate software for 1099 reporting every year. With automatic updates and guaranteed compliance, Taxport A/P streamlines the work required for this non-value added chore. Using the Taxport A/P service will also ensure accurate and compliant efforts, avoiding unnecessary penalties.

- ▶ Requires no IT support or effort
- ▶ Proactively discover invalid TIN/Name combinations before filing
- ▶ Easy-to-navigate interface
- ▶ Make the first months of every year easier

Taxport A/P has integrated tools that quickly allow the completion of all the necessary steps. The Smart Importsm feature automatically maps source data to your forms and accepts both Excel and 1220 files. Dashboard Monitoringsm tells you what needs to be done and provides status updates. In addition, the Print, Mail and Transmit services are all included.

Convey: Taxport A/P

Know who your payees are. Most bad TINs are added to a company's data when vendor accounts are open. Taxport A/P lets businesses check the information before a vendor becomes a new record with the real-time TIN validation tool.

Streamline work efforts. Taxport A/P's intuitive design makes it easy to learn and use and lets the accounts payable department spend more time on core business activities.

Web-based. Eliminate the need to purchase, update, install, integrate or operate desktop tax reporting software. The subscription-based service plans meet the needs of most A/P department budgets.

Gain full support. Taxport A/P supports standard 1099 forms typically used by accounts payable departments, including 1099-MISC.

Automatic updates. Guaranteed corporate tax compliance and increased accuracy means less risk of managing 1099 tax withholding or incurring penalties and fines.

Balance credit card purchases versus non-card purchases. Use the T-Chek MasterCard Corporate Card when possible to avoid the need of issuing a 1099 form and Taxport A/P for non-card expenses.
